Cut & Paste Character count

Credit: [JavaScript Kit](#)

Description: Calculate and display the number of characters within a TEXTAREA with this script. Useful, for example, in helping your visitors manually keep their input length in check!

Example:

Calculate Characters

Directions: Simply copy everything inside and paste it where you wish the script to appear:

```
<form method="POST">
<table border="0" cellspacing="0" cellpadding="0">
  <tr>
    <td width="100%">
<textarea rows="12" name="charcount" cols="60" wrap="virtual"></textarea>
    </td>
  </tr>
</tr>
</form>
```
